“The house was just perfect for us. It’s much nicer than the photos indicate and seems to have had a revamp but the online images have not been updated which is a shame. It’s very spacious and comfortable. The wood burner was a great boon in the evenings. Daytime temperatures were very pleasant and we had lunch on the pool terrace enjoying the fabulous views. The pool looked very inviting but the weather wasn’t warm enough to try it. Cotignac itself is a gorgeous village with lots of restaurants, cafes, boutiques, art galleries and craft shops. We also had a couple of day trips out to the Verdon Gorge and the lake which is only about a 40 minute drive away. Absolutely amazing place and wonderful for walking. This trip was one of our most enjoyable. We’re thinking of returning for a longer stay next year.” 19 Jan 2020
